

Eastview RB Community Center, 17520 Drayton Hall Way, San Diego, CA 92128

Eastview Homeowners, Builders, and Contractors:

Eastview homeowners who lost their homes during the October fires, as well as those residents who wish to replace their shake roofs with tile, will receive a 5% discount offered by US Tile to assist with the recovery and rebuilding process. US Tile is the manufacturer of all approved Eastview roofs, and their products are sold through a roofing wholesale distribution network.

To receive the appropriate tile discount, homeowners and their selected roofing contractors must adhere to the following process:

Each homeowner must first complete an Architectural Review Committee (ARC) application to request a roof replacement. Advise your roofing contractor that the correct tile blend for Eastview homes is as follows:

- **20% Fire Flash**
- **20% Terra Cotta**
- **60% El Camino Blend**

When ordering the tile through a distributor, your roofing contractor must advise the distributor to provide US Tile with the *Eastview discount reference number: 000464*.

A discount of approximately 5% will be quoted directly through the distributor to the roofing contractor, after the contractor has picked up the materials. Each homeowner should ask the roofing contractor to indicate the discount amount on their final invoice.

No billing corrections will be made once the order has been picked up if no discount quote is obtained from the distributor. It is the sole responsibility of the homeowner and the roofing contractor to ensure that the Eastview discount reference number is provided to US Tile *at the time the order is placed*.

Please give me a call with any questions you have regarding the discount procedure.
